World Class Service  
from the World's Market Leader

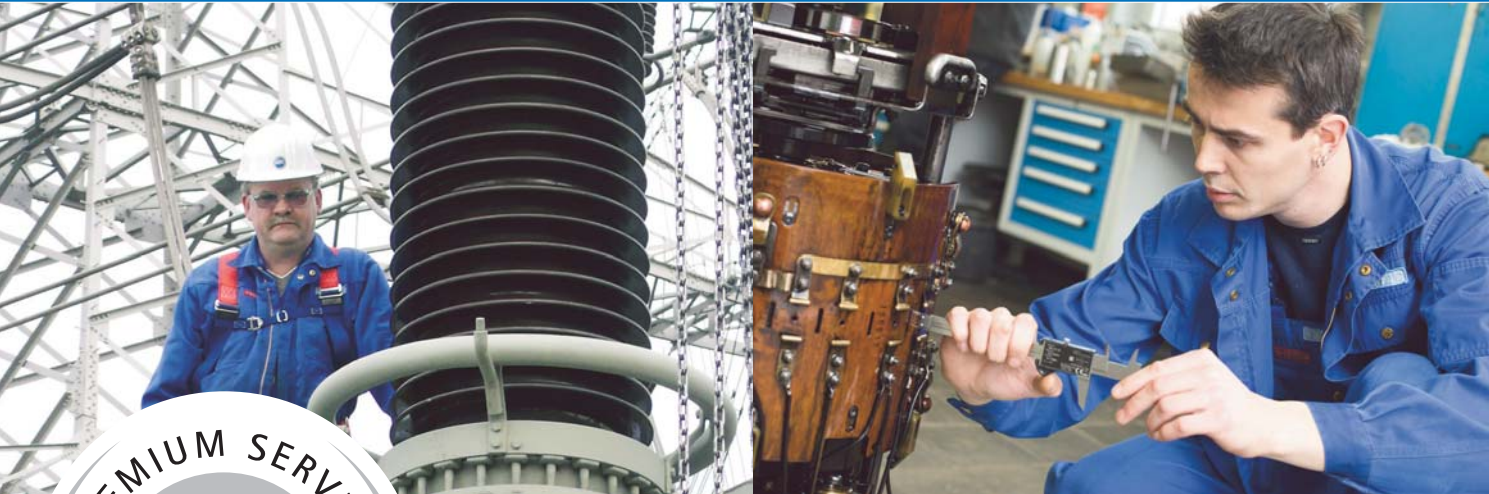

www.reinhausen.com

Tested quality – Premium Service Provider.

Only the best is good enough.

Time is money.

Service by MR means that you can expect – unconditional quality. Anywhere in the world.

Our network of certified Premium Service Providers guarantees that. Receipt of this quality seal requires attendance at regularly held training courses and passing of theoretical and practical examinations. Then there is also the experience gained through thousands of service jobs every year. For you the customer this means uniform quality and service always based on the latest state of technology. We are so sure of this that we offer you a 24-month warranty on our services.

Only the best is good enough for our customers. This is the reason all Premium Service Providers use only original MR spare parts. Decades later, we can still deliver the appropriate parts. Or, in extreme cases, we will manufacture them just for you. Since user requirements – your requirements – are our sole criterion.

Time is money. This saying is even more applicable when a malfunction occurs. How nice to know that you can depend on the MR troubleshooter. Our service engineers are usually on site within 24 hours. Worldwide and around the clock. Not a second is lost and you keep your cool. There is no problem that we can't fix – guaranteed!
