Replacement of on-load tap-changer type OILTAP® R by VACUTAP® VR®

Dear customer,

with the introduction of the on-load tap-changer VACUTAP® VR® in 2004, MR offers the ideal alternative to the classic oil technology. Already today, the majority of our customers trust in the unique advantages of vacuum technology. The successor generation, which has proven itself over thousands of times, offers maximum safety and profitability, and sets new standards in reliability.

With the addition of the new VACUTAP® VRL® I 1801...3201 to our VACUTAP® family, the alternative to classic oil technology is now also available in the high-performance segment:

- Maximum voltage at the equipment Um 420 kV
- Rated through current Ir 3,200 A
- Rated step power Pst 10,000k VA

**Convince yourself of the advantages
of the world's most powerful
vacuum on-load tap-changer!**

[VACUTAP® VRL®](#)

As a result of the increasing use of the high-performance on-load tap-changer VACUTAP® VR®, the number of units of the OILTAP® R continued to decline. The reduced production volume is no longer compatible with the requirements of series production.

For this reason, we will remove the OILTAP® R on-load tap-changer family from the product range after a transitional period and end series production on December 31, 2023.

Existing projects and contracts for which we have already issued written commitments and guaranteed delivery beyond the stated date will of course remain valid.

However, we ask you to use the VACUTAP® VR® or VACUTAP® VRL® already today for all future project planning.

Of course, we will continue to be available to you in the future with our competent after-sales service (spare parts, repairs, support) for all products placed on the market by us.

Please also forward this information to other relevant departments within your company. We thank you for the confidence you have placed in us and our products and look forward to our continued cooperation.

For any questions related to this discontinuation, please feel free to contact our sales team at any time.

With kind regards
