

Remote Solutions

Digital. Efficient. Customized.

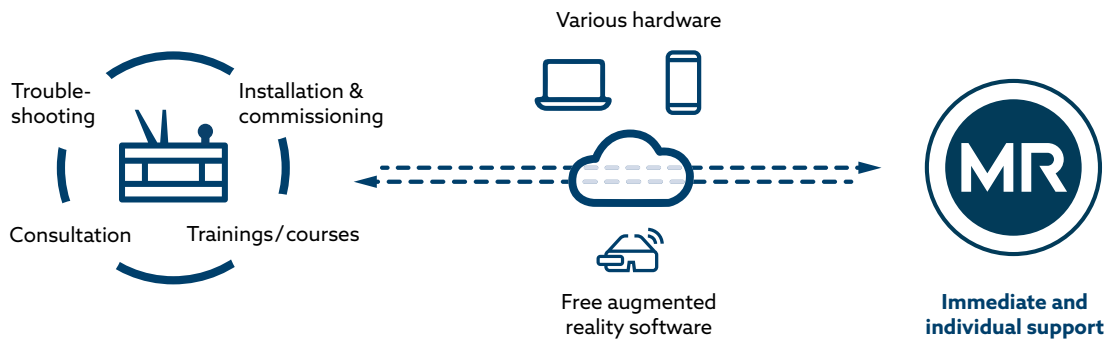

Fast and competent support.

We eliminate your malfunctions, support with the installation and commissioning of products and conduct customized trainings. With our Remote Solutions, you have the global MR expert network at your disposal whenever you need it.

Your challenges

- Troubleshooting of sudden failures costs a lot of time and resources
- Ensuring high availability of the transformers while adhering to the budget
- Complicated planning and implementation of service calls and further qualification
- Travel restrictions make it difficult to perform on-site services
- Increased system complexity requires assistance from specialists

Our solution

Your advantages

Cost reduction
