RATINGS
The module "Rating" is since July 2015 available for use. Therefore all future ratings will be performed within the Supplier Portal. All rating results will be available and visible for both sides within the Supplier Portal. Ratings will be performed once a year.

The overall responsibility for the entire rating process is with the Purchasing Commodity Manager. Communication as well as discussion will be led by The Purchasing Commodity Manager, if needed with additional support by other departments.

The questions are answered by the responsible contact person in Logistics, Quality and Purchasing.
HOW TO FIND MY RATINGS?

1. Please click on "Navigation" – then open "Ratings". In this case, the rating "Training Documentation" is visible.

2. Please open this rating – you will see the following screen:
A total result is calculated. This is the weighted average of the results of all three departments.

Please note: The total result is not the highest priority – more important are the department specific results. Those are used for dedicated improvement actions which have to be agreed between the supplier and MR.
Criteria categories:

- **Hard facts**: Values which are derived from our ERP-System.

- **Soft facts**: Questions which are answered by the responsible department.

- **Internal Connectors**: Values which are derived directly from the Supplier Portal.
RATING MODEL (2)

Criteria Purchasing

- Soft facts: 80%
  - Material price development
  - Recovery rate of claim cost
  - Comment
- Internal Connectors: 20%
  - Up-to-date status of the Supplier Questionnaire
